

2026 CGA-IGC Annual Meeting

The Collaborative Group of the Americas on Inherited Gastrointestinal Cancer

November 2-4, 2026
Denver

Why Support the CGA-IGC?

Your support will allow us to continue being a key resource for individuals and institutions working in the field of inherited gastrointestinal cancer syndromes through facilitating collaborative studies, spotlighting the presentation of novel ideas and data, and allowing for expert discussions around the care of patients and their families.

Visibility

You can receive significant exposure during the year through our activities, website, and communications as well as during our Annual Meeting. This is the best way to position your organization to a community of over 400 multidisciplinary members (comprising clinicians, Researchers, and patient advocates) who all specialize in the assessment and management of familial GI cancer in the Americas.

Strengthen Your Identity

Aligning your organization with our core programs in clinical care, healthcare policy, and research strengthens your position in the field and more importantly demonstrates your ongoing commitment to our network and ultimately patients and their families. Create your competitive difference by communicating with our members throughout the year and being easily recognized at our Annual Meeting with a face-to-face presence.

Support Networking

Networking develops meaningful connections by having direct engagement. Support networking through education and social activities and connect with members virtually or in person at our social events and exhibition during our Annual Meeting.
